

IDEATION PHASE

DATE	22 SEPTEMBER 2022.
TEAM ID	PNT2022MID38677
PROJECT NAME	Fertilizers Recommendation System for Disease Prediction.

Brainstorm Ideation:

Fertilizer is most effective when used on plants at their peak growing cycle. This is when the plant is leafing out for deciduous species, flowering, or putting on new growth after leaving the dormant winter stage. The time of year for fertilizing most plants would then be spring.

Brainstorm:
